Dear colleagues,

We are pleased to welcome you to the annual International Conference “Modern Development of Magnetic Resonance 2022” and the Zavoisky Award 2022 ceremony (www.kfti.knc.ru/en/zavoisky) supported by the Government of the Republic of Tatarstan which will be held in Kazan, Russia on October 3 – October 7, 2022.

THE SCOPE OF THE CONFERENCE

- Perspectives of magnetic resonance in science and spin technology
- Theory of magnetic resonance
- Low-dimensional systems and nano-systems
- Electron spin based methods for electronic and spatial structure determination in physics, chemistry and biology
- Molecular magnets and liquid crystals
- Chemical and biological systems
- Fullerenes and fullerene-based materials
- Strongly correlated electron systems
- Spin-based information processing
- Medical physics
- Magnetic resonance imaging
- Other applications of magnetic resonance
- Modern methods of magnetic resonance
- Magnetic resonance instrumentation
- New trends in spin chemistry
- Related phenomena

LANGUAGE

The official language of the conference is English
